Chair's Message

Re: 2nd International In Office Breathing Disorders Surgery Course, 10th to 12th December 2026

We are pleased to present the above course, which will be held at Hospital Central do Funchal, Portugal. This non-profit course is organised by Miguel Furtado, Consultant ENT Surgeon.

This will be the second edition of the course. We aim to attract experienced delegates from Portugal and abroad, and we believe the course offers real value to them.

We therefore expect significant interest from **both senior trainees and established surgeons, whatever their previous experience**. The course has a dedicated website, which will be **its main channel for promotion**. It is open to Portuguese, European and international delegates.

Miguel Furtado

Course Director

02 · PURPOSE

Mission

Our mission is to advance the practice of in-office and awake ENT surgery for breathing disorders across Europe by combining high-level surgical education with strategic collaboration.

EDUCATION

Through a practical, small-group course led by international experts and featuring live surgery, we aim to empower ENT surgeons with the skills and confidence to bring minimally invasive, office-based procedures into routine practice.

COLLABORATION

At the same time, **we will engage hospitals and insurance partners to create sustainable frameworks that expand patient access, optimize resources, and set new standards of care.**

Hospital Dr. Nélio Mendonça

FUNCHAL CENTRAL HOSPITAL
SESARAM, EPERAM

INAUGURATED
9 SEPTEMBER 1973

With Marmeleiros Hospital, it forms Funchal Central Hospital and is part of the Regional Health Service, EPERAM.

The hospital, formerly known as Hospital Cruz de Carvalho, owes its current name to the founder of the Health Service of the Autonomous Region of Madeira and former president of the Legislative Assembly of the Autonomous Region of Madeira, Nélio Mendonça. It was inaugurated on September 9, 1973, in the presence of the President of the Republic, Américo Tomás.
